Re: Request for Quotation – Asphalt Repair and Paving (RFQ-EC-PW-23-03)

Brief Description of Work:

(A) Patching and overlays

The Township requires a qualified contractor to make all final preparations for paving and to pave the areas in attached form located in the Township of Edwardsburgh Cardinal. Township staff will cut and remove the sections of existing asphalt, where applicable, provided that one week notice is given prior to commencement of work.

Sub-base to be fine graded by contractor, gravel added (if required) compacted prior to asphalt and minimum asphalt thickness as stipulated in the attached form. The new pavement must be as seamless as possible to meet surrounding existing asphalt grade and slope. OPSS to be followed.

(B) Scott Road Pad and Overlay

Due to the uncertainty of quantity, the estimated unit cost for **Scott Road** will be in tonnes and include all labour, material, equipment, and mobilization required to complete the work. Ruts and imperfections will be padded with HL3 HBC and followed with a final continuous surface pavement of 40mm of HL3 which will be included in the total unit cost and maximum total tonnage.

The contractor will be responsible for providing all traffic control and applicable health and safety requirements in the performance of the work.

The Township reserves the right to reduce or expand the scope, subject to budget.

The lowest or any quotation may not necessarily be accepted.
