Dear Resident,

July 3, 2025

Re: CR2 Asphalt Sidewalk Replacement

This notice is to let you know that the existing asphalt sidewalk from approximately St. Lawrence Street, heading east to the end is scheduled to be replaced this July.

Schedule

During the first part of the month, Lloyd McMillan Equipment Ltd will be removing the existing asphalt sidewalk in preparation for the new asphalt sidewalk. Tentatively, the week of July 22 Black Tar Construction will be onsite to install the new asphalt sidewalk.

FAQ's

Can my driveway get done at the same time? This is not part of the project scope however you can reach out directly to Black Tar Construction office between 7:00 a.m. and 6:00 p.m. (Monday to Friday) by calling 888-424-5455 or emailing bookings@blacktar.ca.

How long do we need to wait before driving over the new sidewalk? If practical, allow 24hours before driving over the new asphalt sidewalk.

Driveway Tie-ins? Will be completed to make a smooth transition to and from sidewalk to driveway.

Lawn Damage? We do anticipate that some lawn restoration along the sidewalk path will be required and should be completed in August.

Please use caution during this project and avoid parking on the sidewalk pathway. We understand this will create some disruption to your normal routine and we appreciate your patience while we have this project completed. Should you have additional questions, you can reach me by calling 613-658-3001 x 5 or emailing dsgrant@twpec.ca

Sincerely,

David S Grant, Director of Operations
