

## NOTICE OF DECISION

### MINOR VARIANCE/ PERMISSION

<b>Committee:</b>	Committee of Adjustment
<b>Application:</b>	Minor Variance, section 45 of the <i>Planning Act</i>
<b>File Number:</b>	A-05-25
<b>Public Meeting Date:</b>	June 4, 2025
<b>Property Location:</b>	709 County Road 21
<b>Property Description:</b>	Con 6, PT Lot 7
<b>Roll Number:</b>	070170103507900
<b>Owner:</b>	Ben Sayah & Antoinette Nesrallah
<b>Agent:</b>	Ben Sayah & Antoinette Nesrallah

#### Proposal and Purpose of the Application:

The purpose and effect of minor variance application A-05-25, is to reduce the minimum lot area and minimum road frontage requirements in the Hamlet Residential (RH) zone, to recognize the retained land and merged parcel in consent applications B-10-25 and B-11-25.

#### Requested Variance to Zoning By-Law No. 2022-37:

1. Section 6.4.2 – Converted dwelling, Duplex dwelling, Single dwelling, Lot area (min)  
Requirement – 0.4 ha  
Requested – 0.35 ha
2. Section 6.4.2 – Converted dwelling, Duplex dwelling, Single dwelling, Lot Frontage (min)  
Requirement – 30 m  
Requested – 25 m

## DECISION AND REASONS OF THE COMMITTEE:

WE, the undersigned, in making the decision upon this application, have considered whether or not the variance(s) requested was minor and desirable for the appropriate development or use of the land, building or structure, and that the general intent and purpose of the zoning by-law and the official plan will be maintained or, in the case of a change in a use of property which is lawfully non-conforming under the by-law, as to whether or not this application has met the requirements of subsection 45(2) of the *Planning Act*, concur in the following decision made during the Committee's public meeting on **June 4, 2025**.

**Decision:** Approved, subject to the following conditions.

### Conditions:

1. That the owner/applicant is advised that approval of this minor variance application is subject to satisfying all conditions of provisional approval for consent application B-10-25 and B-11-25 and the issuance of the Certificate of Official. Failure to satisfy the conditions of consent will result in this minor variance approval to be null-in-void.

### Reasons for Decision:

1. Does the application maintain the general intent and purpose of the Official Plan?  
The subject property is designated as Settlement Policy Area in the Townships Official Plan and subject to the policies of Section 3.1. The Settlement Policy Area designation is intended to be the areas of the Township where growth will be focused in order to optimize the use of public services and infrastructure, and to minimize the outward sprawl of development into areas of natural resources and natural heritage.

The proposal to protect and enhance the existing residential uses and the rehabilitation and conversion of the vacant Church to a single detached dwelling is in keeping with the goals and objectives of the Settlement Area Policy designation. The severance to separate the two dwellings on the one lot will provide separate title to each dwelling allowing for each dwelling to have individual ownership. The lot addition will provide lands to the rear of the property at 709 County Road 21 (retained lot) which will provide a rear yard for the converted church and access to the remaining portion of land at the rear of the severed lot at 711 County Road.

The variances are required to satisfy the conditions of consent for each consent application. The requested variances will recognize the lot areas of each resulting lot and the lot frontage at 709 County Road 21.

2. Does the application maintain the general intent and purpose of the zoning bylaw?

The subject properties are zoned Hamlet Residential (RH) in Zoning By-Law Number 2022-37, as amended. A single dwelling on private services is a permitted use in the RH zone. Each resulting lot and its existing single detached dwelling on private services comply with the permitted uses in the RH zone.

Each resulting lot will not comply with the minimum lot area requirement of 0.4 hectares while the retained lot municipally addressed as 709 County Road 21 will not comply with the minimum road frontage requirement of 30-metres. Any encroaching structures on the subject property shall be treated as a structure and will be calculated as part of the lot coverage and comply with other requirements of the R2 zone.

The proposed lot area and frontages are similar to existing residential lots in the Hamlet of Shanly. The applicants' consent sketches illustrate that each residential development and its services will be located on its own property and that each lot will be functional for their continued residential purposes.

In conclusion, Planning staff is satisfied that each resulting lot and the requested variances as a result of consent applications B-10-25 and B-11-25, meets the intent of the Zoning By-Law for their intended residential use.

3. Is the application minor in nature?

The proposed parcel fabric and the requested variances will maintain the residential character of the settlement area (Hamlet of Shanly) and are anticipated to have no negative impacts on the abutting lands or inhibit their continued enjoyment of their properties. There will be no visual change to the streetscape as each the consent will only establish the lot lines for each of the existing dwellings. No new dwelling will result from the proposal.

Each resulting property will have frontage on an open and maintained County Road and each dwelling will have its own private onsite water (well) and sewage disposal system entirely located on their own parcel of land.

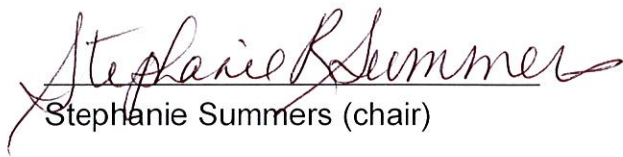

The requested variances are in keeping with the policies of the Official Plan and Zoning By-Law provisions and will not result in any negative impacts on the abutting lands or their continued use and are therefore considered minor in nature.

4. Is the application desirable for the appropriate development or use of the land, building or structure?

The proposed lot area and frontages are similar to existing residential lots along County Road 21 in the Hamlet of Shanly. The applicants' consent sketches illustrate that each residential development and its services will be located on its own property and that each lot will be functional for their continued residential purposes.

Each resulting lot will maintain their separate accesses to County Road 21 and will therefore have no impacts to the streetscape or traffic.

The applicant has demonstrated that each resulting lot and its development will be functional for the residential use and will comply with the remaining requirements of the RH zone, therefore the proposal is considered to be desirable for and appropriate.
