1. INTRODUCTION

This plan will address the specific accessibility requirements in relation to the 2026 Municipal Election in the Township of Edwardsburgh Cardinal.

The Township of Edwardsburgh Cardinal has made great efforts in promoting a barrier free community. In an effort to ensure that the 2026 Municipal Election is consistent with the core principles of the Accessibility for Ontarians with Disabilities Act, 2005, this planning document was developed in advance of the election in order to identify measures to be taken and reported to Council following the election.

The Municipal Election Act, (MEA), Section 12.1 (1) places responsibility on the Clerk to have regard to the needs of the electors and candidates with disabilities. Accessible Customer Service Standards must be followed when conducting a municipal election.

Section 12.1 (2) of the MEA requires that the Clerk shall prepare a plan regarding the identification, removal and prevention of barriers that affect electors and candidates with disabilities and shall make the plan available to the public before voting day in a regular election.

The municipal election will be conducted in a manner that shall ensure that those with disabilities have access to election information and services including the voting area. The election shall be conducted in a manner that ensures that persons with disabilities are able to vote independently and privately with access to voting assistance if required.

2. OBJECTIVES

This plan is intended to highlight measures that the Township of Edwardsburgh Cardinal will be implementing to ensure equal opportunity for all electors and candidates. These objectives include:

- That persons with disabilities are able to independently cast their vote and verify their selection.
- That persons with disabilities have full and equal access to all information on where and when to vote and on eligible candidates.
- That persons with disabilities can fully participate in the Municipal Election as an elector, candidate, or election official.
- That efforts are made to ensure that electors with disabilities are aware of the accessibility measures available via channels such as the newspaper, media launches, the Township of Edwardsburgh Cardinal website and social media.
- That all voting locations are accessible.

3. DEVELOPMENT OF THE PLAN

This Plan is a “living” document which will be improved and updated as best practices are identified and new opportunities for improvement arise. In order to develop the plan below, several steps were taken in order to ensure that the statutory requirements were met, and a feasible implementation plan was in place. During the development of the 2026 Municipal Election Accessibility Plan, the following steps shall be implemented:

- Review and analysis of documents, policies and other supporting materials from AMCTO, neighboring municipalities, the Ministry of Municipal Affairs and Housing, technology suppliers and other various stakeholder groups.
- Establish staff training standards and practices directly related to the Election to ensure that people with disabilities are able to vote in a positive customer service environment and ensure that all Election Officials recognize that a voter’s needs shall be accommodated.

4. VOTING METHODS

The 2026 Township of Edwardsburgh Cardinal Municipal Election will be working with Intelivote Systems Inc. to provide eVoting services to eligible voters. This includes the convenience and independence of voting from anywhere via telephone, internet or in-person at a voting station during the October 19-26, 2026, voting period.

Everyday tools like computers, telephones and other aids can present accessible opportunities for persons with disabilities to accomplish more, while being consistent with the principles of independence, dignity, integration and equal opportunity.

The Intelivote Voting System provides voters with the capability to vote from the comfort of their own home. Voting from home facilitates the voting process for persons with disabilities who may have mobility restrictions, visual impairment, and/or have transportation difficulties. Additionally, persons who have assistive devices set up in their homes can now use them to assist with casting a ballot privately and independently.

By allowing persons with disabilities to vote from any location and from a selection of methods, there is an increase in the capability for the voter to vote without any assistance. This provides persons with disabilities the same independence and privacy in participating in the election as other voters. If persons with disabilities do require assistance in the voting process, trained Election Officials will be present at in-person Polling Locations offered across Township of Edwardsburgh Cardinal, throughout the voting period.

4.1 Telephone Voting

Eligible voters may vote using a touch-tone telephone, and the toll-free telephone number, date of birth, and the PIN number contained in their Voter Information Letter to access an audio ballot. Communication barriers can make it difficult for people to receive or convey information. Barriers may be identified as low volume, use of language that is not clear or plain, and confusing or unorganized menu options.

The Intelivote telephone voting application provides the following:

- Service on all types of touch tone phones and wireless devices.
- Clear, plain language.
- Menu options that are easy to follow, advising when to select options and provision of confirmation of the voter's selections.
- Standard volume is used to allow for adjustment dependent of the telephone or device being utilized.

4.2 Internet Voting

Eligible voters may vote online, using a smart phone, tablet device, gaming device or computer and any accompanying assistive devices or software, along with their date of birth and PIN and qualifying information, to access the internet address provided in their Voter Instruction Letter.

The Intelivote System has been created to meet the Web Content Accessibility Guidelines (WCAG-2 Level AA), so that persons with disabilities can perceive, understand, navigate and interact with the online voting system.
