ADDENDUM # 1

Tender Number: EC-PW-26-06

Date: March 9, 2026

The following question(s) have been received since March 3, 2026.

Question 1

With respect to item 2 - HL3 Surface Overlay (all streets 25mm) and Spot Padding/Leveling 25mm. Would the township consider separating the asphalt overlay portion of the tender from the padding portion of the tender? If the total asphalt quantities are provided per each operation (Overlay & Padding), all contractors pricing the tender would have a fair opportunity at pricing the work as the overlay portion is unlikely to differ in quantity but the padding quantities will more often increase/decrease based on infield situ. Having a tender item amount for this work would ensure the work is similarly priced.

Answer

We have intentionally structured the Form of Tender with a single unit price for HL3 surface overlay which includes spot padding and leveling, to ensure consistency with the tender quantities and the scope as issued. The estimated 1,300-tonne quantity already includes an allowance for padding. To maintain fairness and consistency for all bidders, the Township will be proceeding with the pricing format as shown in the existing Form of Tender.

End of Addendum 1

All communication concerning this tender shall be in writing to Eric Wemerman, Director of Operations: ewemerman@twpec.ca and received on or before 4pm local time on March 18, 2026. The final addendum with answers to questions and clarifications will be issued by March 20, 2026.
