Question 1

Can you please add an item for iron adjustments and provide the quantity for each location.

Answer

The Township is already requesting unit prices for both minor and major adjustments to valve boxes, maintenance holes, and catch basins as provisional items in Part B of the Form of Tender. These provisional items will be used only if required and only upon approval by the Manager of Public Works. As such, no additional tender item will be added, and no specific quantities will be released.

Question 2

Can you please add an item for restoration and provide the quantity for each location.

Answer

The Township does not anticipate significant topsoil or sod restoration as part of this resurfacing project. Any minor restoration required will be completed by Township staff. Accordingly, no restoration item or quantity will be added to the Form of Tender.
